

Tuscatucket Brook Watershed - High Priority			
BMP ID	Location	Schedule	Issues
6B	Brentwood Avenue	2016	No existing CBs. Install two deep sump, leaching CBs.
7B	Everglade Avenue	2016	No existing CBs. Install two deep sump, leaching CBs.
17B	Cove Avenue	2016	Sediment forebay at end of roadway, install additional rip-rap. Contact CRMC regarding Maintenance Assent
13	Liverpool Street	2017	Land area limited. Install two deep sump, leaching CBs upstream of existing CBs.
15	Almy Street	2017	Land area limited. Install two deep sump, leaching CBs upstream of existing CBs.
2	Sundance Street	2018	There are two locations where drainage easements and outfalls are located on recently aquired RIAC property. Detention and/or infiltration could occur at these locations. The City has begun coordinating with RIAC on proposals at these locations. Would need to coordinate with Warwick Planning Department, RIAC, and State Property Commission.
5B	Adrian Street	2018	See comment above, as Carolyn (which turns into Adrian) has a drainage system that conveys flow to the RIAC properties. Install two deep sump, leaching catch basins (CBs) upstream of existing CBs.
8B	Inman Avenue	2018	Inman recently paved. Install two deep sump, leaching CBs.
