Re: Paratransit Bus bid recommendation, Bid 2023-348

Francis,

We received four bids from a low of \$109,912 to a high of \$119,745 for a 12 passenger paratransit van with two wheelchair positions. The buses quoted were a 2023 GM or 2022 Ford Chassis. This is a comparison of the two lowest, responsible bidders.

The lowest bidders were Creative Bus Sales with a bid of \$109,912 and Matthews Bus with a bid of \$110,872. Creative Bus Sales bid a Chevy G3500 on a 2022 chassis that is in stock and available in 45 days. Matthews Bus bid was for a Chevy 4500 on a 2023 chassis to be built and available in approximately 90 days.

Creative Bus Sales was non-compliant with explanations in 16 specifications. Of those items the following are most critical:

- The quote is for a Chevy G3500 with 9500# GVW with a 2022 chassis
- No rear door
- 5/8 plywood sub-flooring in place of 3/4 plywood
- No battery box for dual batteries
- Non retractable seatbelts in the coach area
- Non-specific driver seat

The bid from Matthews Bus was non-compliant in one item, with an explanation of an upgraded replacement. Also as stated, Matthews' bid is for a higher GVW (14,200#) rating and a current year chassis.

The difference between the two bids is \$960. Considering this and the specifications that are non-compliant or replaced, we recommend the bid be awarded to Matthews Bus. Considerations for this offer should be a guarantee to hold this quote for a specific delivery date that would not incur additional cost from third party vendors. Since all of our Transwick buses are currently in good working order, time is not of the essence and a 90 day delivery is reasonable.

Sincerely,

Meg Underwood
Director of Senior Services

Robert Smith

Francis Gomez
Purchasing Agent
City of Warwick

The Fire Department is seeking a 56-6 exception to bid to send 24 fire recruits to the State of Rhode Island Municipal Fire Training Program. I am seeking to award the purchase to the Rhode Island State Fire Training Academy of 4 Green Lane, Exeter RI; in the amount of \$78,000.

As part of the Warwick Fire Department Recruit Training Academy, the fire department is sending 4 recruits to a 12-week Training Program at the Rhode Island Fire Academy class graduating this fiscal year, and 20 recruits to a class graduating next fiscal year. At the conclusion of this program, these recruits will have gained National Board on Fire Service Professional Qualifications (ProBoard) certification in Firefighting Levels 1 and 2, Fire Apparatus Driver/Operator Pumper & Aerial, and Hazardous Materials Operations. The Rhode Island State Fire Training Academy is the sole provider in Rhode Island for training which provides certification from the ProBoard. I have attached a sole provider letter from the Director of the Rhode Island State Fire Training Academy.

The class is offered at a cost of \$3,250 per student, which is consistent with Fire Training Academy tuition throughout the New England region. The Fire Department is requesting a one-year award, for a total amount not to exceed \$78,000. The cost of this course will be funded through budget code 35-301 – Training and Education with \$13,000 being expensed from the FY23 budget and \$65,000 being expensed from the FY24 budget.

Please contact me should you have any questions.

Re: Sole Source

Dear Sir,

The Rhode Island Fire Training Academy conducts training for Fire Departments. This training includes programs based upon National Fire Protection Association (NFPA) Standards. A number of the training programs are approved by the National Board on Fire Service Professional Qualifications (ProBoard). They include the following;

1. NFPA 1001 Standard for Fire Fighters Professional Qualifications.
2. NFPA 1002 Standard for Fire Apparatus Driver/Operator Professional Qualifications.
3. NFPA 1006 Standard for Technical Rescue Personal Professional Qualifications.
4. NFPA 1021 Standard for Fire Officer Professional Qualifications.
5. NFPA 1041 Standard for Fire and Emergency Services Instructor Professional Qualifications.
6. NFPA 1072 Standard for Hazardous Materials Weapons of Mass Destruction Emergency Response Personal Professional Qualifications.
7. NFPA 1521 Standard for Fire Department Safety Officer Professional Qualifications.

The Rhode Island Fire Training Academy is the sole provider for training which provides certification from the ProBoard.

Respectfully:

Mark S. Pare E.F.O.

Director

Rhode Island Fire Training Academy

Re: 6-12 Alteration to Contract - GeTac F110 Tablets and Vehicle Mounting Hardware
Bid2023-176
Funding Source: Supplies- Computer 30-231

Dear Ms. Gomez,

The police department previously went out to bid for GeTac F110 tablets and the vehicle mounting hardware associated with the GeTac F110 tablets. This equipment is utilized to outfit new police cruisers and to replace any worn or damaged parts in the older police vehicles. The \$50,000 contract was awarded to Island Tech Services of 980 S. 2nd Street, Ronkonkoma, NY 11779.

The police department is requesting to increase our spending authority by an additional \$60,000 for a new total spending authority of \$110,000. In addition to our originally budgeted needs, we will now need to upfit various new police vehicles previously purchased with ARPA funding. These new vehicle needs, in addition to phasing out nearly obsolete and/or broken mobile data terminals necessitates this request.

We plan to purchase fifteen (15) tablets this Spring and another twelve (12) once the new fiscal year begins. We will also be able to avoid a potential price increase by purchasing more tablets under the current bid pricing.

The timeframe of the current one-year contract running from November 9, 2022 through November 8, 2023 will remain unchanged. Funding for this purchase, if approved, would be allocated from the Police Operating Budget, code #30-231, "Supplies-Computer."

Sincerely,

A handwritten signature in black ink, appearing to read "Major Andrew P Sullivan".

Major Andrew P Sullivan
Administrative Bureau Commander

Re: Request for Spending Authorization- GeTac F110 Tablets and Vehicle Mounting Hardware
Bid2023-176
Funding Source: Supplies- Computer 30-231

Dear Ms. Peshka,

The department went out to bid for GeTac F110 tablets and the vehicle mounting hardware associated with the GeTac F110 tablets. This equipment is utilized to both outfit new police cruisers and replace any worn or damaged parts in the older police vehicles. The GeTac F110 is the computer platform that all police officers use to run criminal history checks, vehicle registrations, wanted persons, etc. The tablets also provides officers with the dispatch console screen, so they can see all the calls for service that are occurring in the city. The department received three (3) bids from the following vendors:

1. Island Tech Services, 980 S. 2nd Street, Ronkonkoma, NY 11779
2. Holzberg Communications, Inc., P.O. Box 322, Totowa, NJ 07511
3. Connected Solutions Group, LLC, 8529 Meadowbridge Rd. STE 300, Mechanicsville, VA 23116

The department recommends the contract be awarded to Island Tech Services, who specializes in tablets/laptops. They were also the lowest, qualified bidder.

The current contract expires on November 8, 2022.

The department is requesting \$50,000.00 for a one year contract running from November 9, 2022 through November 8, 2023. Funding for this purchase, if approved, would be allocated from the Police Computers budget - 30-231.

Sincerely,

A handwritten signature in black ink, appearing to read "Michael Lima".

Michael Lima
Deputy Chief of Police

Re: 56-6 – Exception to Bid – Symposium Technologies USA, Inc.

This is a request under City Ordinance 56-6, Exception to Bid, to award the annual service and support contract for the Horizon Event Management Environment Software to Symposium Technologies USA, Inc. in the amount of \$35,000.00, as the sole provider of this service. This represents a zero dollar increase over last years' service contract.

This software provides the Fire Department a real-time web-based emergency response platform which includes computer-aided dispatch, E911 ANI/ALI data integration, in-vehicle response system, map-based mobile response alerting system and a station monitoring feature. The Fire Department has been using Symposium Technologies since April of 2016. The current bid expired on April 30, 2023. This support contract runs from May 1, 2023 through April 30, 2024.

Symposium Technologies USA, Inc., 81 Mill Way, PO Box 1180, Barnstable, MA 02630, is the proprietary owner of this software and as such are the Sole Source for the service and support of the product.

This expense is budgeted in and will be paid for out of Budget Code 25-334.

Cc: Peder Schaefer – Finance Director

Subj: Bid2023-356 Traffic Signs, Channel Post and Materials

We have reviewed the four bids submitted for the above and recommend award, in the best interest of the City to Garden State Highway, Traffic Signs & Safety, Inc., Eberl Iron Works and Lightle Enterprises of Ohio, LLC as the overall lowest bidders for the purchase of materials utilized by the sign shop in the Highway Division. Purchases made under this request will be based on price, then availability, based on the urgency of the necessary materials.

The current bid expires on June 4, 2023. The new contract period will be June 5, 2023 to June 4, 2024. The recommended cap is \$18,000.00 for a one-year period.

(63-227 - \$18,000)

Subj: Bid2023-371 Purchase Migma Flashing Pedestrian Crossing Signals

The Public Works Department has reviewed the five bids submitted for the purchase of eight flashing pedestrian signals for Ward 3. This purchase is part of the allotted ARPA funding designated for each ward for community projects in the amount of \$200,000. The department recommends award to Migma Systems, Inc. as the lowest responsible bidder. This vendor is also providing delivery and installation assistance at no charge.

This purchase will satisfy City Council Resolution R-23-21 approved by Mayor Picozzi on February 28, 2023.

This is a one-time purchase and therefore no contract period is necessary. The total cost for these signals is \$13,280.00

(510-0400 - \$13,280)

RESOLUTION OF THE CITY COUNCIL

NO.....R-23-21..... DATE 2-28-23.....

APPROVED  MAYOR

A RESOLUTION RELATIVE TO ISSUING REQUESTS FOR PROPOSALS FOR
AMERICAN RESCUE PLAN ACT COMMUNITY PROJECTS

Resolved that,

WHEREAS, the health, safety and welfare of the citizens of the City of Warwick are matters of paramount importance to the City Council; and

WHEREAS, the Warwick City Council passed and the Mayor R-22-57 which adopted the City Budget for Fiscal Year 2023 and included an allocation of \$1,800,000 from American Rescue Plan Act (ARPA) funds for Ward Projects;

WHEREAS, the City of Warwick requested ideas from the residents for ARPA eligible infrastructure improvements to improve the quality of life in the Wards, including projects to enhance recreational opportunities, increase economic development, and for beautification projects;

WHEREAS, the City Council desires that proposals for community projects in the Wards be developed and procured.

NOW THEREFORE, BE IT RESOLVED, that the Director of Public Works and the Purchasing Agent are hereby directed to develop, in consultation with the Councilperson of the Ward, and issue requests for proposals regarding the following community projects:

- Ward 3, Strawberry Field Road / Almy St (to replace prior request at Warwick Public Library), LED pedestrian crosswalk lights and solar speed signs;

The City Clerk is hereby directed to forward a copy of this Resolution to the Director of the Departments of Public Works and the Purchasing Agent.

This Resolution shall take effect upon passage.

Re: Request for Spending Authorization – Lefta Systems
City Ordinance 56-6: Exception to Notice Requirement
Funding Source: 30-340: Service Contracts

Dear Ms. Gomez,

The police department is seeking authorization to renew its purchase of specific software for its electronic management of personnel.

In 2021, the police department researched and found a program that tracks information using one software platform that would satisfy the needs of this agency. The software is provided by LEFTA Systems and is referred to as the "Annual SHIELD Suite." This software is sole source and the company has provided a letter indicating such.

Electronic software is vital to smooth operations within this agency and this software will provide the tracking of academy recruits, Field Training Program - Daily Operational Reports (DORs), training records, use of force information, internal affairs, biased based profiling, vehicle pursuits, vehicle incident documentation and employee conduct tracking. Conducting these matters in a paper format has proven to be far costlier and more time consuming. Each of these programs is customizable to our needs and over the last two years of use has resulted in a more efficient and effective workplace.

The cost to renew this contract is \$12,597.85. This includes access to all the programs on the "SHIELD Suite" and user access to every member of the police department.

The current contract expires on 4/30/23. If approved, funding in the amount of \$12,597.85 will be allocated from Police Budget Code 30-340: Service Contracts. This is a one-year award valid from 5/1/23 through 4/30/24.

Please feel free to contact me if you require any further information.

Sincerely

SHIELD Suite Sole Source Letter

LEFTA Systems™ is the only vendor that provides one comprehensive software platform, SHIELD Suite, consisting of software applications in the areas of:

1. Academy (ATRAX)
2. Field Training (LEFTA)
3. Employee Training Records (METR)
4. Use of Force (FACTS)
5. Internal Affairs
6. Profiling / Field Investigation (PASS)
7. Vehicle Pursuit (VIPR)
8. Fleet Vehicle Damage (V-DOC)
9. Employee Conduct (EMCOT)
10. Immigration Enforcement Tracking (IFIR)

The applications housed under the SHIELD Suite provide an all-inclusive solution for the electronic maintenance and administration of document-based information within an agency. The SHIELD Suite platform also allows a client to manage access for all applications with just one user profile.

Each software application within the SHIELD Suite is a fully independent application that can be customized to client specifications. Customizations can include nomenclature, user permission rights, electronic signature sequence, email alerts and much more.

While they function independently, several of the applications connect with related applications within the platform. The ATRAX academy application links with our LEFTA field training application. LEFTA also links with our employee training records application METR, allowing a clear view of an employee's training from the time they enter the academy until they retire or leave an agency. Other applications allow for the population of data points that were previously captured in different reports, alleviating redundant data entry.

LEFTA Systems™ also offers an optional business intelligence tool that allows clients to intelligently interpret hundreds of data points collected within the SHIELD Suite, as well as incorporating a highly customizable Early Warning System.

We are a cloud-based Software-as-a-Service (SaaS) provider that utilizes Microsoft's AZURE Government to securely host client data with redundancy backup and a four-million-dollar cyber insurance policy.

Our applications are a need-based line of software developed by LEFTA Systems™ specifically to meet the challenges of documenting training and other areas of high liability. LEFTA Systems™ SHIELD Suite is the only integrated product of its kind on the market. We own the development code for these software applications and LEFTA Systems™ is the sole distributor of the SHIELD Suite.

Best regards,

Bryan Selzer

RE: Request for Spending Authorization; Traffic Speed Laser (3)
City Ordinance 56-6; Exception to Bid
Budget Code 30-340 "Service Contracts"

Dear Ms. Gomez,

The police department is seeking authorization to spend \$4,185.00 to purchase three (3) Laser Tech (LTI) Truspeed lasers from Laser Technology Inc, of 6912 South Quentin Street Centennial, CO 80112.

Speed measuring laser technology is a unique tool for traffic enforcement in that it utilizes a dedicated laser to identify a specific vehicle's speed rather than traditional radar technology which isn't necessarily specific to a single vehicle when multiple vehicles are in the detection area. This laser unit weighs less than one pound and is rugged enough to withstand weather and incidental drops. Freight and a 4-year warranty are included in the pricing.

Incrementally updating our laser and radar speed detection inventory allows us to maintain a healthy inventory of newer and older equipment which helps avoid having to purchase all the equipment at once.

The police department has previously purchased this model and our personnel are satisfied with its performance and durability. This model's specifications fulfill our personnel's needs and minimum standards and the technology available in the Truspeed laser is not available elsewhere. Laser Technology Inc (LTI) is the sole manufacturer and distributor of this product and have provided a sole source letter.

If approved, funding for this purchase would come from the police operating budget, code #30-340, "Service Contracts."

Please feel free to contact me should you require any further information.

Sincerely

CRASH & CRIME SCENE MAPPING

Measurement Lasers
Field Data Collection Software

Complete Field-to-Courtroom Diagram
Indoor and Outdoor Solutions

LTI

TRAFFIC SAFETY

Surveying a crime scene is a tedious task that needs to be documented quickly, yet with a high level of accuracy. The evidence cannot be disturbed, and the documentation needs to be carefully preserved.

- Have confidence that valuable points are accurately collected
- Use advanced technology that is affordable for any department
- Set up and measure your first point within seconds
- Preserve the scene by plotting points from a preferred distance

CRASH SCENE MAPPING

With the high cost of shutting down roadways and the dangerous risk of secondary crashes, time is always of the essence. This stand-alone complete mapping system complements the tools and workflows in your crash scene mapping toolbox.

- Set up in seconds and start mapping within minutes
- Reflectorless technology eliminates the need for a prism
- Use control points to stitch together large scenes and create reference points for drones or robots

MAPPING PACKAGES

TruPoint™ 300

- Provides high quality, accurate, easy-to-see targets with 4X zoom camera, Uses red-dot
- Ideal for indoors or close-proximity scenes and crash analysis
- Operates easily with step-by-step icons and a color display screen
- Measure distance, inclination, and horizontal angles for X, Y, and Z measurements

TruPulse® 200X + MapStar® TruAngle®

- Ideal for larger outdoor scenes
- Uses 7X magnified scope for aiming
- Provides needed functionality and accuracy at an affordable price
- Measure distance, inclination, and horizontal angle values with the capability to capture X, Y, and Z coordinates for 3D mapping

QuickMap 3D (QM3D) field data collection software is the first of its kind on the iOS and Android platforms. This app delivers the flexibility and easy workflow needed for effective scene mapping. It's a simple yet powerful program that integrates with LTI's laser mapping systems and smart devices. QM3D was specifically designed so that more time can be spent mapping rather than training. Download and try it out for free for the first 30 days.

Experience an Easy Workflow

Easily collect, store, and identify critical evidence, with helpful reminders as you map

Email Your CAD-Ready Map

Transfer up to 70% of your CAD work from tablet to PC, hassle- and cable-free

Take Photos within Your Map

Every photo taken is automatically saved with the file name, point number, and notations

Pay Less for Tech and Training

Save time and money with a mapping system that is affordable and requires basic training

Quality Check Your Data on Scene

Easily review and edit data in real-time and watch your map take shape with each point

Collect Data Your Way

QM3D is adaptable to any scene with specialized mapping techniques for any situation or equipment assembly. Quickly identify points with a custom-built pick list of commonly mapped features.

Baseline Offset

Occupy the roadside and measure all features at a 90° angle

Range Triangulation

Occupy the feature and measure to the same two remote targets

Radial with Angle

Occupy any safe location and measure to features at any angle

QM3D Report Formats

- Text Report (*.txt)
- ASCII Report (*.asc.)
- Spreadsheet Report (*.csv)
- CAD File (*.dxf)
- Raw Data (*.raw)
- Graphic Small (*.png)
- Graphic Large (*.png)

Compatible CAD Programs

- FARO Zone 2D
- FARO Zone 3D
- Map360
- CSI Office
- EdgeFX
- Aras 360

TRAFFIC SAFETY

LTI

LTI 20/20 LIDAR SOLUTIONS

LTI 20/20 TruSpeed® S/Sxb

Contains state-of-the-art technology at an unmatched value. Weighs less than a pound, making it ideal for motor officers.

- › S model measures speed and distance, Sxb adds mapping capability and communicates wirelessly to LTI's SpeedCapture App and QuickMap 3D
- › Clearly identifies vehicles with 7x superior optics
- › Handles the demands of daily use with rugged exterior and tactile grips

LTI 20/20 TruSpeed® LR

Provides everything you want from a pistol-grip laser at the most affordable price.

- › Extends your range with advanced LR firmware
- › Increases confidence levels with anti-jam detection
- › Enhances aiming stability with removable shoulder rest

LTI 20/20 TruVISION™

Collects and stores a complete chain of evidence for indisputable speeding and tailgating violations.

- › Captures high-resolution images of license plates
- › Uses AdapTec™ for automatic focus, iris, and shutter
- › Features an enlarged user interface screen
- › Easily navigate with the color-coded, graphical icons
- › Enforce speeds of motorcycles or vehicles without a front license plate

SPEED ENFORCEMENT

Utilizing lidar/video technology can help your department stay ahead of the curve.

VIDEO & IMAGES

Capable of pinpoint targeting of vehicles on multilane highways. Laser use is proven to influence better driving behavior.

DISTRACTED DRIVING

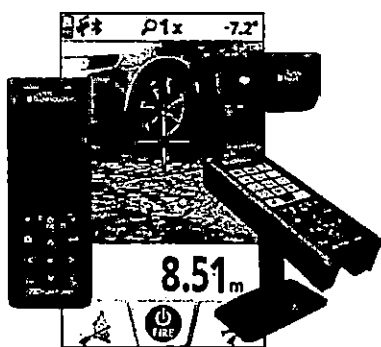

Integrate the TruSpeed Sxb laser with your smart phone to capture more than just speed.

INCIDENT MAPPING PACKAGES

TruPulse® 200X + MapStar® TruAngle®

- Ideal for larger outdoor scenes
- Uses 7X magnified scope for aiming
- Provides needed functionality and accuracy at an affordable price
- Measure distance, inclination, and horizontal angle values with the capability to capture X, Y, and Z coordinates for 3D mapping

TruPoint™ 300

- Provides high quality, accurate, easy-to-see targets with 4X zoom camera, Uses red-dot
- Ideal for indoors or close-proximity scenes and crush analysis
- Operates easily with step-by-step icons and a color display screen
- Measure distance, inclination, and horizontal angles for X, Y, and Z measurements

QuickMap 3D®

Combine with QuickMap 3D for a simple and cost-effective solution to collect scene measurements for court. Adaptable to any scene with specialized mapping techniques for any situation or equipment assembly (Android™ + iOS).

- Sets up, levels, and zeros out in seconds
- Operates easily with simple interface
- Export .DXF, .CSV, .ASC, and .RAW reports for importing into FARO Zone any diagramming software

Search "LaserSoft QuickMap"

Check www.lasertech.com for current app compatibility specifications

INCIDENT MAPPING

Measuring critical points at the scene doesn't have to be time-consuming or expensive. LTI offers field to courtroom synergy.

DISTANCE BETWEEN CARS

Enforce Following Too Close with speed measurements that include time and distance between cars.

SPEED APPLICATIONS

Perform quick speed assessments, spot surveys, and vehicle counts with SpeedCapture and SpeedStat App.

LTI 20/20 TruSpeed®

LASER SERIES

▶ TruSpeed® S Speed Gun

The LTI 20/20 TruSpeed® S is the ultimate laser for speed and distracted driving enforcement, crash scene mapping, and smartphone apps. The TruSpeed S series possesses state-of-the-art technology, is compact, rugged, and weighs less than a pound, offered at an unmatched value for the price.

Key Features

- ▶ Inconspicuous design
- ▶ Crystal-clear 7x optics with real-time illuminated display
- ▶ Rugged exterior with tactile grips
- ▶ Simple operation

All models include:

- ▶ Carrying case
- ▶ Neck strap
- ▶ Eyepiece cover
- ▶ 2 CR 123A batteries
- ▶ Operator's manual

TruSpeed S Models

S: Measures speed and most affordable

Sxb: Adds mapping and Bluetooth® Communication

SpeedCapture App

Sync with smartphone for photo enforcement:

- ▶ Speeding
- ▶ Distracted Driving
- ▶ Seatbelt Use
- ▶ HOV Lane
- ▶ Stop Sign
- ▶ Red Light

QuickMap 3D®

Integrate it with mapping accessories and simplified data collection software

▶ PRODUCT SPECIFICATIONS

Weight	0.9 lb
Size (L x W x H)	5.2 x 4.5 x 2.1 in
Construction	Glass-filled polycarbonate composite
Maximum Range	2,000 ft
Speed Range	± 200 mph
Range Accuracy	± 6 in
Speed Accuracy	± 1 mph

Power	(1) CR 123A battery (12 hours of operation time)
Environmental	Water resistant; NEMA 4; IP 55
Operating Temperature	-22° to 140° F
Storage Temperature	-31° to 158° F
Eye Safety	Class 1/FDA CFR 21
Bluetooth (Sxb only)	Class 2, Ver. 2.1, Backwards compatible, 128-bit encryption, iOS/Android

TruSpeed® Speed Gun

The essential laser for long-range speed detection, anti-jam technology, and data collection. The LTI 20/20 TruSpeed has an ergonomic pistol grip handle, a removable shoulder stock for increased aiming stability and the accuracy you expect from an LTI laser.

Key Benefits

- ▶ Large icon keypad for easy operation with gloves
- ▶ Adjust the brightness level on the heads-up display for maximum visibility
- ▶ Enhanced aiming stability with the removable shoulder rest
- ▶ One-button weather mode and easy menu options

TruSpeed Models

Standard: Measures speed and range
LR: Longer range with anti-jam feature

SpeedStat

Connect with SpeedStat to collect traffic statistics with time, date, direction, and speed.

January 21, 2021

To whom it may concern,

Please be advised that Laser Technology, Inc. is the sole manufacturer and distributor of the *LTI 20/20 TruSpeed® S*. The TruSpeed® S possesses state-of-the-art technology, has a rugged exterior and offers unmatched value for the price. *"Instantly deploy it, fire it and store it"* aptly describes how the TruSpeed® S is a simple point and shoot laser that can fit in the palm of your hand and can easily be stored almost anywhere.

Key Features:

- Binocular-style design
- Weighs less than 1 lb
- Rugged exterior
- Tactile grips
- 7x scope
- All-weather proof
- Additional benefits:
 - Operates on 1 CR123A battery providing up to 12 hours of operation time
 - Simple point and shoot operation
 - BlackMask LCD clearly displays real-time data of all speed readings and menus under all lighting conditions
 - Hibernation mode allows the last speed measurement to be kept for 15 minutes if unit has no activity for 30 seconds

If I can provide you with additional information on this matter, please don't hesitate to call.

Sincerely,

A handwritten signature in black ink, appearing to read "Roosevelt Rogers". The signature is stylized with a large, looping "R" and a long horizontal stroke at the end.

Roosevelt Rogers
Chief Revenue Officer
Laser Technology, Inc.
