40 Wickes Way, LLC
144 Metro Center Blvd, Unit F
Warwick, RI 02886

Subject: Assessor's Plat: 347, Assessor's Lot(s): 47
Draft Preliminary Decision

To Whom It May Concern:

The following is the decision on your application for a Preliminary Plan Approval of a Major Subdivision, located along 50 Child Lane, Buttonwoods Avenue and Vera Street; further identified as Assessor's Plat: 347; Assessor's Lot: 476, heard by the Warwick Planning Board at the regularly scheduled meeting of February 14, 2024.

After completion of the public hearing for which notice was served and a record kept, the Warwick Planning Board, taking into consideration its knowledge and expertise and after considering all of the representations and presentations made at the public informational meeting, makes the following finding, that the development, as proposed, is generally consistent with RIGL Section 45-23-30 *General Purposes of Land Development and Subdivision Review Ordinances, Regulations and Rules*, and Article I *Purposes and General Statement* of the City's Development Review Regulations, and Subdivision of Land, specifically, RIGL Sections 45-23-60, *Procedure — Required Findings*, as follows:

1. That the proposed development is generally consistent with the Comprehensive Community Plan, which supports the protection of established residential neighborhoods, and is generally consistent with the existing neighborhood:
 - Chapter 12 of the City of Warwick Comprehensive Plan, specifically, the section entitled "Future Land Use, Zoning and Urban Design: Goals and Policies," which promotes developments "*that are safe, attractive, well-maintained and stable... ones designed to "protect... and support... existing residential neighborhoods,"*
 - *It further promotes... "Public and private development that meet high standards of design by ensuring that proposed new residential development is compatible with the character of the surrounding area,"*

PLANNING DEPARTMENT • THOMAS KRAVITZ, DIRECTOR
3275 POST ROAD • WARWICK, RI 02886 • 401-738-2009

2. That the proposed subdivision is in compliance with the standards and provisions of the City's Zoning Ordinance, specifically the A-7 Residential Zoning District and the City's Development Review Regulations.
3. That the subdivision is within 200' of a wetland and contains a RIDEM Freshwater Wetlands Permit, Application # 23-0178. There does not appear to be significant negative environmental impacts from the proposed development.
4. The plan does not result in the creation of individual lots with such physical constraints to development that building on those lots according to pertinent regulations and building standards would be impracticable.
5. That the subdivision possesses adequate access along Child Lane and Buttonwoods Avenue.
6. That the development, as proposed, will have access to Municipal Sewer and Water.

Based on the foregoing findings of fact, the Board voted to adopt the Planning Department Finding's and Recommendation's and ask Final Plan be submitted administratively for recording, with the following stipulations:

1. That the Applicant shall submit a Preliminary Development Plan and Record Plat that shall comply with the Rules and Regulations for Professional Land Surveyors, Effective November 25, 2015.
2. That the Applicant shall submit a Record Plat that shall comply with Appendix C, Major Subdivision/Land Development Application, of the Development Review Regulation governing Subdivisions, Land Development Projects, and Development Plan Review, Effective January 1, 1996; Amended January 01, 2000 and March 14, 2001; which shall include, but not be limited to:
 - Note all existing and proposed utilities
 - Note existing/proposed easements, including an access easement to the City of Warwick property abutting the development
 - Note locations of existing and proposed hydrants
 - Note monumentation as required per the City's Development Review Regulations
 - Note roadway geometry detailing smooth transitions at the intersection of existing roadways.
 - Note existing and proposed grading, including top of foundation elevation. Spot grading may be necessary to accurately define details necessary for construction.
 - Note all proposed improvements including, but not limited to, dwelling, driveways, walkways, etc.

3. That, a Stormwater Management Plan has been submitted in accordance with Rhode Island Storm Water Design and Installation Standards Manual, dated December 2010, and designed to demonstrate a zero-net runoff from the proposed development.
4. That the Operation and Maintenance Plan for the proposed storm water collection system shall be the responsibility of a homeowners association.
5. That street lighting is not required. If the Developer chooses to install street lights, the Developer shall be responsible for the design and installation of the lighting and must coordinate with Rhode Island Energy. The Homeowners Association shall be responsible for the usage-cost and the maintenance of the lighting in perpetuity.
6. That the Applicant shall coordinate with the City's Water Division and Sewer Authority, on an ongoing basis during construction.
7. Trash and Recycling collection must be coordinated with the City of Warwick Sanitation Division.
8. The applicant has been put in contact with RIAC officials to understand noise contouring maps and whether soundproofing shall be installed by the applicant at the applicant's discretion.

Philip Slocum, Chairman
Warwick Planning Board
